

Katherine Loeffler
- 1955

George Joseph Loeffler writes:

KATHERINE LOEFFLER married **LOUIS WEBER**. No date of birth is available for either of them. Katherine died January 26, 1955. Louis had preceded her in death by several years. Their children were Florence (Flora), Joseph, Margaret (Maggie), Helen, and Elmer [there are no pictures of Helen or Elmer].

To the best of my recollection these children all married and all had children. Florence died October 2, 1953, and Joseph died September 17, 1955, in the same year as his mother. Margaret's husband was William Biederman who died in May, 1962. To the best of my knowledge, Margaret, Helen, and Elmer are still living [1973]. I have checked telephone books and written several letters (1968 - 1973) in an effort to contact Weber or Eble cousins, but with no success.
